

## MobQoL-7D

Mobility can mean lots of different things. For some people mobility is about walking around, for other people mobility is about using a wheelchair or other aids. The aim of this questionnaire is to find out how your mobility affects your quality of life, no matter how you move around or what mobility aids you use.

For each question, place a tick ( ) in **ONE** box to show which statement best describes your quality of life and mobility <u>at the moment</u>. If you use any mobility aids, think about how they help or hinder you in relation to each question

1. Accessibility			
	I <u>do not</u> find it difficult to move around my home		
	I find it a little bit difficult to move around my home		
	I find it <u>very</u> difficult to move around my home		
	I <u>cannot</u> move around my home		
2. Contribution (such as contributing at home, work, education or in the community)			
	My mobility never makes it difficult to contribute and do the things that make me feel valued		
	My mobility sometimes makes it difficult to contribute and do the things that make me feel valued		
	My mobility often makes it difficult to contribute and do the things that make me feel valued		
	My mobility <u>always</u> makes it difficult to contribute and do the things that make me feel valued		
3. Pain and discomfort			
	Moving around in my everyday life is <u>not</u> painful or uncomfortable		
	Moving around in my everyday life is a little bit painful or uncomfortable		
	Moving around in my everyday life is <u>very</u> painful or uncomfortable		
	Moving around in my everyday life is <u>extremely</u> painful or uncomfortable		

4. Ind	lependence
	I am <u>always</u> satisfied with my level of independence
	I am often satisfied with my level of independence
	I am sometimes satisfied with my level of independence
	I am never satisfied with my level of independence
5. Se	If-esteem (including identity, confidence and self-consciousness)
	I never feel bad about myself because of my mobility
	I sometimes feel bad about myself because of my mobility
	I often feel bad about myself because of my mobility
	I <u>always</u> feel bad about myself because of my mobility
6. Mo	od and emotions
	I never feel low, sad or unhappy because of my mobility
	I sometimes feel low, sad or unhappy because of my mobility
	I often feel low, sad or unhappy because of my mobility
	I <u>always</u> feel low, sad or unhappy because of my mobility
7. An	xiety (such as feelings of worry or stress)
	My mobility does not make me feel anxious
	My mobility makes me feel a little bit anxious
	My mobility makes me feel very anxious
	My mobility makes me feel extremely anxious
